Summary

A highly driven Information Technology enthusiast and very passionate about technology and innovation. I get excited with new challenges and find pleasure exploring and utilizing new technologies to solve problems. I have a strong track record of leadership, teamwork and learning to grow and give my all to whatever I do to get the best out of it. I also have adequate knowledge in user-centered principles, wireframing, prototyping, visual design, expertise in using Figma. My interest for emerging technologies has greatly contributed to my love for technology, instilling resilience and devotion to it.
